

A Great Big "Thank You" from Save a Smile!

We are especially proud this year to honor each and every one of you, for helping us celebrate 15 years of serving the children in our community through their smiles. We never could have done it without you, and the children would not be healthier if you had not stepped in to help! Thank you for ALL you have done to contribute to the success of Save a Smile!

You truly make the difference and we hope you will enjoy this short video that demonstrates the true meaning of what you do and how it changes lives.

More kids in need of a smile!

As we wrap up this school year, and look ahead to 2018-19, we again anticipate an increased need for volunteer dentists! We continue to find many students, some as young as 3 or 4, that need dental care. If you can help us increase our number of volunteer providers, we would appreciate you sharing our story! You can always refer potential volunteers [here](#) for more information.

Texas Health Institute “Oral Health in Texas” report now available!

The Texas Health Institute (THI) recently released a report titled “Oral Health in Texas: Bridging Gaps and Filling Needs.” This is an evidence-based, data-driven, biannual report on oral health in Texas. The report will serve as a key resource for various stakeholders including public health, hospitals, elected officials, research, evaluation, and development.
